Table of Contents

Introduction to Dreamweaver....1

Who is Dreamweaver for?....1
What is a “webmaster?”....1
History of Dreamweaver....2
Goals of this class....3
What's New in Dreamweaver CS4....4
Static pages vs. Dynamic pages....5
Choosing a Server-side language....6
Server-side Languages covered in this course....7
Introduction to ColdFusion....7
Introduction to Active Server Pages....8
Introduction to PHP....8
Who This Course is For....9
Course Project....9
Confronting Differences in Technologies....11

Passing Data from Page to Page....13

Understanding HTTP Requests: Passing data through the URL....13
Accessing Variables in the URL....14
HTML Form Basics....15

Create a Dreamweaver “Site”....17

Create a New Site – Manage Sites....17
Site Creation – Basic....17
Site Creation - Advanced....25
Exercise 1: Create a Dreamweaver Site....28

Database Basics....32

Database Alphabet Soup: ODBC, JDBC, OleDB, DSNs and SQL....33
Introduction to SQL 34
Select Statement....34
Update Statement....35
Insert Statement....35
Delete Statement....35
Course Project Database....36

Create a Database Connection....40

Application Panel Group....40
ASP: Create a Database Connection....42
ColdFusion: Connect to Database with a DSN....43

Server Behaviors....46

Simple Recordset....46
Exercise 2: Build Simple Recordset....50

Display Recordset Results....52
Repeat Region....53
Exercise 3: Display Query Results....54
Paging through Records....56
Record Paging....56
Exercise 4: Paging through Records....60
Show Region if….....62
Exercise 5: Show Region if….....64
Display Recordcount....66
ColdFusion and PHP: Display Record Count....66
Shortcut and ASP: Display Record Count....67
Exercise 6: Display Recordcount....68
Go to Detail Page (Pass a Parameter to a Second Page)....70
Pass a Variable in a Link....71
ASP: "Go to Detail page" Server Behavior....73
PHP and ColdFusion: External Extensions available....74
ColdFusion: Add code from scratch....74
Exercise 7: Go to Detail Page....76
Filtering a Recordset to Create a Detail Page (Add a SQL WHERE Clause)....78
Simple Recordset with Filter....78
View Query in Advanced Recordset....79
Formatting the Date....82
Exercise 8: Create a Detail Page....84
Advanced Recordsets and Multi-table Queries....86
Exercise 9: Advanced Recordset and Multi-Table Query....90
Shorcuts! (Optional)....92
Dynamic Table....92
Recordset Navigation Bar....93
Recordset Navigation Status....93
Master Detail Page Set....93
Review and Cumulative Exercise....94
Exercise 10: Cumulative Exercise – Create Actors page in style of "allmovies" and "moviedetails"....94
Create an Admin Section....98
Create Admin Page....98
Dynamically Created Form Elements....100
Using Dreamweaver to create forms....100
Create dynamic select list of movie titles....101
Advanced SQL Technique: Create an Alias....104

Exercise 11: Dynamically Create Select Lists....106
Insert New Record....110
Insert New Actor – using "Insert Record Behavior" 110
Client-side Form Validation using Spry....112
Exercise 12: Insert New Actor....114
Exercise 13: Insert New Movie (optional)....118
Edit (Update) Record....122
A Closer Look....123
Adding the Update Record Behavior....124
Exercise 14: Edit Record....126
Delete Record....130
Delete Record Behavior....131
Delete a Record from the database....132
"Delete Record" by changing status to "inactive"....133
Exercise 15: Delete Movie....134
Password Protect Pages (User Authentication)....138
Getting Ready....138
Password Protect the admin section....139
Users Table....140
"Restrict Access to Page" Behavior....140
Complete the login page....141
Create Logout page....142
Check New Username....142
ColdFusion: Potential Error....142
Exercise 16: Password Protect a Page....144
Site Management Tools....146
Find and Replace....146
Built in FTP client....146
File check-in/check-out....146
Design Notes....147
Link Checker....148
Reports....148
Browser Compatibility Check....149
(Optional) Exercise 17: Site Reporting....150
(Optional) Exercise 18: Project....150
Appendix A: Course Set-up....152
ColdFusion Setup Instructions:....152
Appendix B: Extending Dreamweaver....154
Check the rating....154
Installing Extensions with Adobe Extension Manager....155
"Go to Detail Page" Extension....155

ASP.NET and JSP Extensions....155
Appendix C: Stored Procedures....156
Dreamweaver and MS Access Queries....157
ColdFusion Users: Access a Stored Procedure....157
Appendix D: Resources....160
Appendix E: Sending Email with ColdFusion....162
